

# CloneCard Pro™

Unique PCMCIA Adapter - The Ultimate Notebook Cloning Solution

The next generation of Logicube's original CloneCard™, the new CloneCard Pro™ is the ultimate answer to fast notebook duplication needs. This unique PCMCIA adapter allows data transfer rates exceeding 225 MB/min., 15 times faster than cloning through the parallel port. The CloneCard Pro™ is compatible with over 90% of all notebook and laptop computers currently on the market.

Designed for use with any Solitaire™, Forensic, or OmniClone™ product, the CloneCard Pro™ is the best and only solution on the market. The CloneCard Pro™, eliminates the need to open up the laptop, take the drive out of the caddy, use costly adapters, or suffer through slow cloning via the parallel port. The CloneCard Pro™ is compatible with all software options.

## Cloning with the CloneCard Pro™ is as easy as 1-2-3:

1. Simply insert the supplied PCMCIA card into the laptop and connect the other end to the target position of your Solitaire™.
2. Boot the laptop with the supplied CloneCard™ client floppy.
3. Proceed to operate the Solitaire™ as if a regular drive is connected at the target position.

**Flexible** - Supports PCMCIA and CardBus technologies

**Transfer Rate** - Speeds may exceed 225MB/min

**Bi-Directional** - Clone to and from a laptop computer

**Easy to Use** - No need for special laptop drive adapters

**High Speed** - Up to 15 times faster than parallel port cloning
